## ***FORWARD***

Life's most priceless possession is memory. Confusing and bewildering events often assume their true perspective as they take their places in the world of remembrances. Many times the greatest happiness exists only in the beauty of retrospect.

This 1981-82 edition of your yearbook is attempting to preserve the personalities and experiences of the past school year. We hope that this pictorial record of today's realities will make a richer and more meaningful memory as the many tomorrows come to all of us.

May this edition of the Panther Spirit help you to relive in beautiful memory one year of the best years of your life.

Johnson scored on runs of three, 61 and 34 yards against previously undefeated Lometa.

**DEFENSIVE PLAYER OF THE WEEK** — Breckenridge defensive lineman Brad Woodward and Shane Speck. Speck and Woodward led a pass rush which put constant pressure on Lometa quarterback Ray Alvarez in the Buckaroo 28-0 win. Without the pass rush, it is doubtful whether the Breckenridge secondary could have kept up with the speedy Lometa receivers.

# ***ONE BY ONE***

One by one, the days have flown,  
The weeks have passed, the year is gone.  
Now stacks of books and silent halls  
Remain to mark the end of all  
The laughter, friendly talk — and tears —  
Just memories now, of one school year.

One by one, the goals were set.  
By force of spirit, mind, and sweat  
The speech was made, the game was won,  
The test was passed, the project done;  
The medals shine and trophies gleam:  
For work has realized the dream.

Now one by one the pages turn —  
The memories made, the lessons learned,  
The friendships forged, the goals achieved  
Are captured here within the leaves  
Of this, your yearbook. One by one,  
We say farewell; our task is done.

## You've got a bright future. We'll do our part to help keep it that way.

Your generation will need as much electricity as is being used these days. Maybe more. We at Texas Electric are working to provide you with the electricity you'll need for college, your homes and your jobs.

In the past, we've used mostly natural gas and oil to make electricity. Today, we're making as much electricity as possible in plants built to use lignite coal. And, we're building a plant to make electricity using uranium fuel. By using these cheaper and more abundant fuels, we'll help keep your future looking bright.
